Project Report Template

1.INTRODUCTION

1.1Overview

In This project , we use custom objects ,relationships, page layouts to give the HR team easy access to data they need on an existing recruitment app.

To make the existing app more efficient for the HR team we create custom objects
And relationships to store and access the data more efficiently. We install an unmanaged package in the org to get metadata that acts as existing data in the
Recruitment app.

1.2 Purpose

To make the existing App more efficient for the HR team.

2 problem definition & thinking

2.1 empathy map

OBJECT NAME	FIELDS IN THE OBJECT	
OBJECCT 1 Job posting	**FIELD LABEL**	**DATA TYPE**

5 ADVANTAGES & DISADVANTAGES

ADVANTAGES;

Sales force is a powerful and flexible platform that can be used to build a

Variety of business application,including event management systems.

Here are some advantages of using salesforce for recruiting for HR manager

- ❖ They often **help manage job trainings where employees can Learn transferable skills.As** an HR assistant ,you might help provide Employees with performance reviews that offfer valuable information About their work.
- ❖ This allows them to identify areas of improvement in their skills And knowledge

DISADVATAGES;

- ❖ External recruits will have **less of an understanding when it comes to the environment of the company**. Plus, there's a greater risk involved with filling a position externally. The new recruit might not be worth the position and can even take advantage of the employer or company.

6 APPLICATION

- ➢ This **Human Resources (HR) Assistant job description** template is optimized for posting on online job boards or careers pages. As a sample description, it's easy to customize for your company's specific needs - add or delete any skills or duties and responsibilities you'd like.

7 CONCLUSION

- ❖ Summarize and interpret the key findings, identify issues found within the data, and answer questions raised by the purpose. Recommendations: Recommend solutions to any problems mentioned in the conclusion, and summarize how these solutions would work.

8 FUTURE SCOPE

❖ In the longer term, we expect Salesforce to **integrate data science and big data capabilities to its Service Cloud and Marketing Cloud**. This would result in automated customer service tasks (via Service Cloud) and would let marketers leverage data for predictive and targeted marketing (via Marketing Cloud)
